INTRODUCTION

"MINERAL PROCESSING ABSTRACTS" is an up-to-date bulletin listing new contributions related to mineral processing and extractive metallurgy technology which have been added to CANMET's MINPROC database.

The MINPROC database became available on-line in 1983, following the computerization of files which had been accumulated in-house over the course of many years.

The MINPROC database contains references to articles, reports, papers and books on mineral processing technology and closely related subjects. World publications are covered with emphasis on Canadian content and on technology applicable to Canadian needs and conditions. Publications in English and French, plus translations of selected foreign-language documents, are included.

As of September 1985, the database contained over 11 000 entries with about 2 000 new items being added yearly. The file is publicly accessible on the QL Systems computer utility from any point in Canada via Datapac. Search service is available from CANMET at a cost of $20.00 per search for those who do not wish to do their own searching.

Materials are arranged under eight major categories:

1. **Physical Separation Processes**
   - comminution
   - flotation
   - magnetic separation
   - filtration
   - classification
   - dewatering
   - aeration
   - sorption
   - crushing
   - beneficiation
   - gravity separation
   - heavy media separation
   - cyclones
   - screening
   - thickening
   - drying
   - adsorption
   - sampling
2. **Hydrometallurgical Extraction Processes**
   - acid leaching
   - organic leaching
   - bacterial leaching
   - chlorination
   - alkali leaching
   - pressure leaching
   - chemical extraction
   - cyanidation
3. **Purification and Metals Recovery**
   - crystallization
   - cementation
   - ion exchange
   - electrowinning
   - precipitation
   - reverse osmosis
   - solvent extraction
   - electrorefining

4. Pyrometallurgical Processes

- roasting
- melting
- thermal reduction processes
- thermal refining
- smelting
- calcining
- sintering
- fluidized beds

5. Waste Disposal, Environment, Safety

- pollution control
- tailings
- dumps
- recycling
- protective equipment
- dust control
- waste effluents
- dams
- reclamation
- radiation hazards
- safety practices
- vegetative stabilization

6. Plants and Equipment

- new and existing processing plants and equipment
- processes
- materials handling
- process control and automation
- costs and flow sheets
- equipment maintenance

7. Miscellaneous

- corrosion
- materials of construction
- mineralogy
- chemical analysis
- phase diagrams
- oxidation
- wear
- protective coatings
- energy consumption
- geology
- thermodynamics
- synthesis
- certified reference materials

8. Reviews, Forecasts, Surveys, Bibliographies, Symposia

Document Availability

Photocopies of documents will be supplied on demand at $0.34/page (minimum charge of $3.40 per order). Prepayment of order is required by cheque or money order payable to the Receiver General for Canada (Canadian funds only).

When requesting photocopies from CANMET, please quote prefix "MPR" and reference number of each document. Requests should be addressed to:

Document Delivery Service

INTRODUCTION

Le bulletin des "RÉSUMÉS SUR LE TRAITEMENT DES MINÉRAUX" est une mise à jour des nouvelles contributions relatives à la minéralogie et à la métallurgie extractive qui ont été ajoutées à la base de données MINPROC de CANMET.

La base de données MINPROC est disponible en ligne directe depuis 1983, année durant laquelle les fichiers accumulés au cours des années ont été informatisés.

La base de données MINPROC contient des références ayant trait à des articles, des rapports, des comptes rendus et des livres qui traitent de minéralurgie et de sujets qui y sont étroitement reliés. Des publications du monde entier sont passées en revue et une attention particulière est accordée aux contributions canadiennes et aux technologies applicables au contexte canadien. Les publications françaises et anglaises ainsi que certains documents en langues étrangères sont inclus.

À compter du mois de septembre 1985 la base de données contenait plus de 11 000 entrées et près de 2 000 nouveaux articles y sont ajoutés chaque année. Le public peut avoir accès au dossier à partir de n'importe quel endroit au Canada en utilisant le système informatique QL, via Datapac. Le service de recherche par ordinateur est disponible auprès du CANMET au prix de 20 $ par recherche pour ceux qui ne désirent pas la faire eux-mêmes.

L'information est disposée selon huit catégories principales:

1. **Procédés de séparation physique**

   - fragmentation
   - flottation
   - séparation magnétique
   - filtration
   - classification
   - égouttage
   - aération
   - absorption
   - concassage
   - valorisation
   - séparation par gravité
   - séparation en milieu dense
   - cyclones
   - criblage
   - épaississement
   - séchage
   - adsorption
   - échantillonnage

2. **Procédés d'extraction hydrométallurgique**

   - lixiviation en milieu acide
   - lixiviation organique
   - lixiviation bactérienne
   - chloruration
   - lixiviation en milieu alcalin
   - lixiviation sous pression
   - extraction chimique
   - cyanuration

3. **Purification et récupération des métaux**

   - cristallisation
   - cémentation
   - échange d'ions
   - électro-extraction
   - précipitation
   - osmose renversée
   - extraction par solvant
   - électro-raffinage

4. **Procédés pyrométallurgiques**

- grillage
- fusion
- procédés de réduction thermique
- affinage thermique
- fonte
- calcination
- sintérisation
- lits fluidisés

5. **Évacuation des déchets, environnement, sécurité**

- contrôle de la pollution
- résidus
- terrils
- recyclage
- équipement protecteur
- contrôle de la poussière
- effluents de déchets
- barrages
- réaménagement
- risque d'irradiation
- pratiques sécuritaires
- stabilisation végétale

6. **Installations et équipement**

- installation et équipement de traitement nouveaux ou existant déjà
- coûts et schémas de traitement
- entretien de l'équipement
- procédés
- manutention des matériaux
- contrôle des procédés et automatisation

7. **Divers**

- corrosion
- matériaux de construction
- minéralogie
- analyse chimique
- diagrammes de phases
- oxydation
- usure
- revêtements protecteurs
- consommation d'énergie
- géologie
- thermodynamique
- synthèse
- matériaux de référence homologues

8. **Examens, prévisions, enquêtes, bibliographies, colloques**

Disponibilité des documents

Des photocopies de documents seront fournies sur demande, au coût de 0,34 $ la page, pour un total minimum de 3,40 $ par commande. Un paiement préalable, au moyen de chèque ou de mandat-poste payable au Receveur général du Canada, est nécessaire. (Seul l'argent canadien est accepté.)

Lorsque vous commandez des photocopies du CANMET, veuillez indiquer le préfixe "MPR" et le numéro d'accès de chaque document et adresser votre demande comme suit:
